# Smileyscope reframes needle experiences with proprietary choreographed Virtual Reality

## How our VR works

While the clinician...

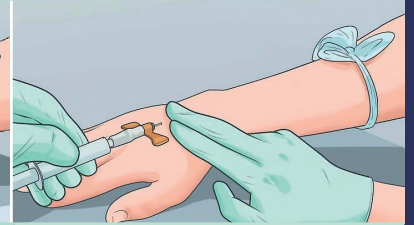

Prepares equipment

Applies antiseptic

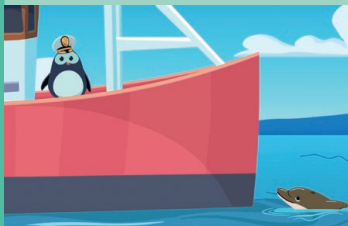

Inserts needle

The patient...

Adventure starts

Waves wash

Fish nibble

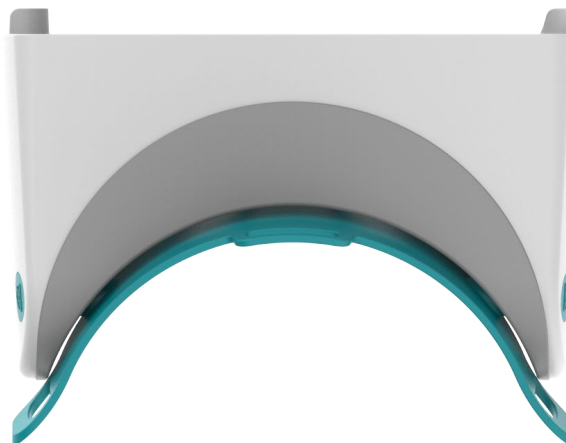

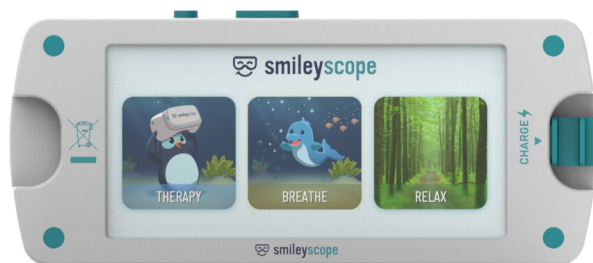

## Evidence based clinical impact<sup>1</sup>

↓ 60%  
Child pain

↓ 40%  
Child anxiety

↓ 75%  
Caregiver distress

↓ 48%  
Restraints

## Improve clinical workflow

**Efficient**  
Streamlined medical procedures

**Easy**  
Intuitive, user friendly touch screen interface

**Hygienic**  
Medical grade, wipeable, with anti-microbial protection (Microban)

**Seamless**  
Requires no change to current practice. VR headset suits 4yrs+
